Hello,

The article I am requesting to use an image from is:

Genes Dev. 2011 Dec 15;25(24):2559-72. doi: 10.1101/gad.169029.111.

Immune microenvironments in solid tumors: new targets for therapy.

Shiao SL, Ganesan AP, Rugo HS, Coussens LM.

Source

Department of Radiation Oncology, University of California at San Francisco, San Francisco, California 94143, USA.

It will be used in a review article entitled "Advances in Immunotherapy for Pancreatic Cancer: 2013" to be published in the Journal of the Pancreas. I will only be using the image, not the text associated with it, to explain the concept of immune system priming by chemotherapeutic agents.

Thank you for your time and urgency in helping me have this approved.
